

Durable, Safe, Economic,
Convenient and with Excellent Ergonomics.

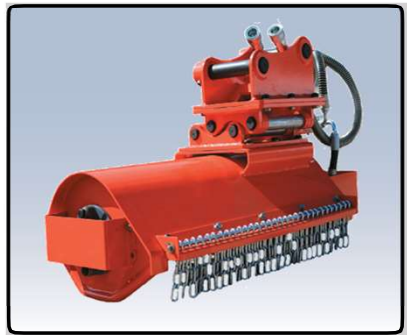

We satisfy the customer's unique demand and requirement !

[Excavator Mounted Flail Mower] New product,
from WOOSUNG, the hallmark of advancement
over many years of research and development!

Product

Woosung's EF Series excavator mounted flail mowers are designed to mow grasses and cut twigs, where grow on inaccessible places to conventional tractors like steep slope, river banks / dikes, meadow and hilly areas.

Model for Mini Excavator

<EF600>

Model for Small Excavator

<EF800/EF1100/EF1300>

PATENT APPLICATION NUMBER : 10-2015-0147077

Key Features

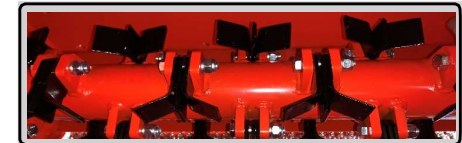

- Hydraulic Connection : Hookup is simple and hoses connect directly to the hydraulic motor.
- Frame Structure : Light-weight but highly rigid design.

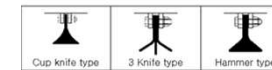

- Flail Knives : Compact-sized but come in excellent wear resistance and optimized to cut grasses, weeds, and small twigs.

- Protection Valve : Diverts sudden build-up of pressure to the hydraulic motor and ensures to protect the hydraulic motor.

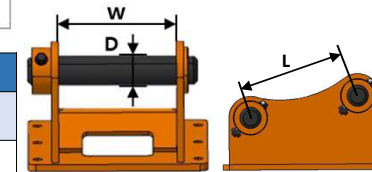

- Mechanical Float Adaptor : This feature allows smooth mowing operation through the contour of the ground.

Specifications

Model	EF600	EF800	EF1100	EF1300
Cutting Width	600mm 23.6in	800mm 31.5in	1100mm 43.3in	1300mm 51.3in
Flow	30~40 L/min 7.9~10.6 gal/min	50~70 min 13.2~18.5 gal/min		
Rated Pressure	245 kgf/cm ²			
Number of Knives	Cup Knife 22ea	3 Knife type : 18set Hammer : 18ea	3 Knife type : 26set Hammer : 26ea	3 Knife type : 22ea
Direction of Rotation	Unidirectional			
Weight	85kg 187lbs	170kg 375lbs	230kg 570lbs	550kg 1,190lbs
Applicable Excavator	1.7~2.5ton 3,748~5,512 lbs	3~4.5ton 6,614~9,921 lbs	5~8ton 11,023~17,637 lbs	10~14ton 28,660~33,069 lbs

Types of Mount and Dimensions

Type	D(mm)	W(mm)	L(mm)
A	25	100	92
B	30	125	125
D	35	150	180
E	40	145	190
G	45	174	271
H	65	280	400

Woosung Precision Industrial Co., Ltd

Durable, Safe, Economic,
Convenient and with **Excellent Ergonomics.**

We satisfy the customer's unique demand and requirement !

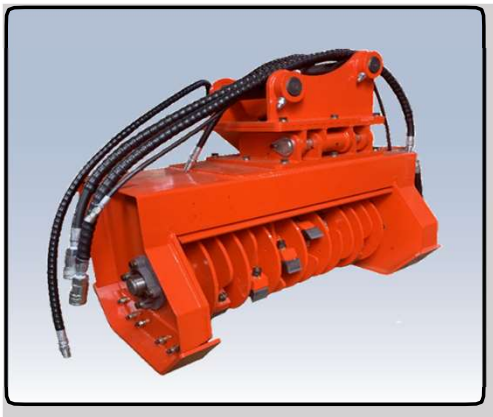

[Forestry Mulcher] New product, from **WOOSUNG**,
the hallmark of advancement

over many years of research and development!

Product

Woosung Forestry Mulcher can be installed on most excavator that the high performance hydraulic motor enables to cut brushes in fast speed and work on trees very efficiently!

Forestry Mulcher

<FM800>

<Forestry Knife>

Key Features

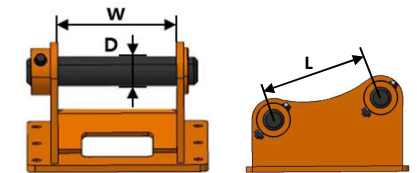

- Hydraulic Connection : Hookup is simple and hoses connect directly to the hydraulic motor.
- Power Unit : Equipped with a very powerful hydraulic piston motor.

- Comes with knives of excellent cutting performance and wear resistance.
- Protection Valve : Diverts sudden build-up of pressure to the hydraulic motor and ensures to protect the hydraulic motor.
- A tilting device enables to tackle the cutting objects more efficiently!

Specifications

Model	FM 800
Cutting Width	853mm / 33.5in
Motor	Piston motor 40cc
Rated Pressure	350kgf/cm ²
Number of Knives	Forestry Knife 14ea
Direction of Rotation	One-way
Weight	750kg / 1,650lbs
Applicable Excavator	10~13ton 3,3748~5,512 lbs

Types of Mount and Dimensions

Types	D(mm)	W(mm)	L(mm)
H	65	280	400

[Excavator Mounted Trimmer] New product, from
WOOSUNG, the hallmark of advancement
over many years of research and development!

Product

Woosung Forestry Trimmer can be installed on most excavator that the high performance hydraulic motor enables to cut brushes in fast speed and work on trees very efficiently!

<ET1500>

Key Features

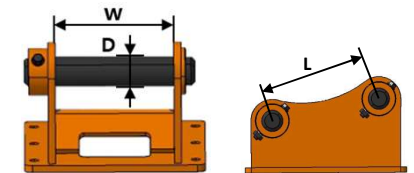

- The trimmer body part rotates 360 degrees to be able to work
- Frame Structure : Light-weight but highly rigid design.

- The operation is based on a rotating cam
- Comes with knives of excellent cutting performance and wear resistance.

Specifications

Model	ET 1500
Cutting Width	1500mm / 60in
Motor	HYD motor 40~80cc
Number of Knives	Knife 21ea
Direction of Rotation	One-way
Weight	250kg / 511lbs
Applicable Excavator	3~4.5ton 6,614~9,921 lbs

Types of Mount and Dimensions			
Type	D(mm)	W(mm)	L(mm)
G	45	174	271
